

# INTA 3120 European Security Issues

Fall 2023

**Class Day: M/W 14:00-15:15**

**Prof. Katja Weber** Email: [katja.weber@inta.gatech.edu](mailto:katja.weber@inta.gatech.edu)

**Office Hours: Tuesday 17:30-18:30; Wed. 13-14:00 and by appointment**

## **Course Description:**

The purpose of this course is: 1) to expose students to the history of European security provisions beginning with the early post-1945 period; 2) to familiarize students with the significant changes the international system experienced in the late 1980s; 3) to analyze the principal explanations given for various security proposals in the post-Cold War environment; 4) to discuss possible scenarios of a "new world order" and to speculate about future developments.

## **Course Goals and Learning Outcomes:**

By the end of this course, students should be able to identify major European security developments from the post-1945 period to the present. Students should also be able to account for the significant changes observed in the international environment in the late 1980s, identify major challenges European security actors confront today and, making use of various conceptual frameworks the students were exposed to during their academic career, hypothesize/speculate about what scholars and policymakers make of today's challenges. Students should also be able to express their arguments clearly and effectively both in written reports and in their research and oral presentations; and work in small groups in a way that demonstrates respect for their colleagues and efficiency in working collaboratively towards projects and goals.

## **Course Requirements and Grading:**

### **Midterm 30%**

**Class presentation 15%** (A **group project** that you will present via PowerPoint and upload to Canvas. Further directions are provided in "Class Presentation" which can be found under "Assignments" in Canvas). [The groups will be assigned in week 2].

**Team paper 15%** (This is associated with the group project above. Further directions are provided in "Team Paper" which can be found under "Assignments" in Canvas).

### **Class participation 10%**

**Simulation 30%** (Further directions are provided in a Simulation Tasker which will be handed out in class on November 15<sup>th</sup>.)

## Grading Scale

Your final grade will be assigned as a letter grade according to the following scale:

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	0-59%

## Required Texts:

Tony Judt, *Postwar: A History of Europe Since 1945* (Penguin, 2005).

In addition to the book listed above there will be readings that can be accessed on **Canvas (C)** under *Files*.

## Course Expectations & Guidelines:

The Ivan Allen College of Liberal Arts supports the Georgia Institute of Technology's commitment to creating a campus free of discrimination on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation, gender identity, or veteran status. We further affirm the importance of cultivating an intellectual climate that allows us to better understand the similarities and differences of those who constitute the Georgia Tech community, as well as the necessity of working against inequalities that may also manifest here as they do in the broader society.

## Academic Integrity

Georgia Tech aims to cultivate a community based on trust, academic integrity, and honor. Students are expected to act according to the highest ethical standards. For information on Georgia Tech's Academic Honor Code, please visit <http://www.catalog.gatech.edu/policies/honor-code/> or <http://www.catalog.gatech.edu/rules/18/>.

Any student suspected of cheating or plagiarizing on an assignment will be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty for violations.

**AI Policy** (adopted from David Joyner, Executive Director of OMSCS and Online Education)

I treat AI-based assistance, such as ChatGPT and Copilot, the same way I treat collaboration with other people: you are welcome to talk about your ideas and work with other people, both inside and outside the class, as well as with AI-based assistants.

However, all work you submit must be your own. You should never include in your assignment anything that was not written directly by you without proper citation (including quotation marks and in-line citation for direct quotes).

Including anything you did not write in your assignment without proper citation will be treated as an academic misconduct case. If you are unsure where the line is between collaborating with AI and copying AI, I recommend the following heuristics:

Heuristic 1: Never hit “Copy” within your conversation with an AI assistant. You can copy your own work into your own conversation, but do not copy anything from the conversation back into your assignment.

Instead, use your interaction with the AI assistant as a learning experience, then let your assignment reflect your improved understanding.

Heuristic 2: Do not have your assignment and the AI agent open at the same time. Similar to the above, use your conversation with the AI as a learning experience, then close the interaction down, open your assignment, and let your assignment reflect your revised knowledge.

This heuristic includes avoiding using AI directly integrated into your composition environment: just as you should not let a classmate write content or code directly into your submission, so also you should avoid using tools that directly add content to your submission.

Deviating from these heuristics does not automatically qualify as academic misconduct; however, following these heuristics essentially guarantees your collaboration will not cross the line into misconduct.

### **Accommodations for Students with Disabilities**

If you are a student with learning needs that require special accommodation, contact the Office of Disability Services at (404)894-2563 or <http://disabilityservices.gatech.edu/>, as soon as possible, to make an appointment to discuss your special needs and to obtain an accommodations letter. Please also e-mail me as soon as possible in order to set up a time to discuss your learning needs.

### **Attendance Policy:**

Regular attendance is expected and essential for obtaining a passing grade. Students must have completed all their readings for each class and contribute to discussions. Students also need to stay on top of their writing and group assignments.

### **Extensions:**

The class presentation and team paper need to be uploaded as scheduled and you need to make sure you do your fair share with respect to the group assignment so as not to disadvantage other group members. You are expected to attend the midterm on the scheduled date unless you can document a serious illness or family emergency, as determined by the Dean of Students.

## **Class Schedule and Readings:**

### **Readings**

#### **Aug. 21      Introduction**

I will go over the syllabus, discuss how to interact with me (email me at [katja.weber@inta.gatech.edu](mailto:katja.weber@inta.gatech.edu)), explain the course assignments and go over course deadlines.

Also, please write a brief **autobiography** so I can learn a bit about you. This is a great opportunity to share anything you would like for me to know about you. Also, this is a place where you can let me know should you require special accommodations. Please bring a copy of your autobiography to class.
